Waalitj Freight and Logistics have been providing a quality service to Australian Indigenous Enterprises.

We find their service and commitment to understanding our industry to be above expectations.

Waalitj Freight and Logistics offer services that are extremely reliable, with a high commitment to safety and have no hesitation in recommending their services to others.

Waalitj Freight and Logistics has been providing a freight service to Australian Indigenous Group for the past year and we couldn't be happier with their services always on time and great friendly people to deal with.

AIG requires a professional, reliable, and efficient transport service to assist with providing our clients with the best possible service. Waalitj transport therefore plays a key role in meeting these requirements.

We therefore would highly recommend Waalitj Freight to anyone who requires their service.

Enviro Light Hire Pty Ltd utilised Waalitj freight services to transport our new lighting towers from Rockingham to Eliwana Minesite, the service was professionally completed with a lot of assistance given from the truck driver.

The items arrived at site safely with no issues or concerns from the receiver of the goods.

Enviro Light Hire recommends using Waalitj for all freight requirements. We look forward to reusing their service again in the near future.
